## Helping your child get their 1st choice every lunchtime

Making the right choice

at lunch time

The School Meals Service is launching a wristband system in your school. The system means you will receive your first choice meal every day. This will make sure you will receive the meal you want every time you have a lunch in school.

### How does it work?

Your child will choose their lunchtime option during morning lessons and will be given a coloured wristband to represent their choice.

- RED - MEAT option
- GREEN - MAIN VEGETARIAN option
- ORANGE - JACKET POTATO with filling option

As they arrive for lunch, the serving staff will know what each child is having so your child will receive his/her choice. This will also speed up serving time so pupils can have more time to enjoy their meal and play with their friends.

### What happens if my child is not happy with their choice?

This shouldn't happen as pupils will be assisted by teachers when making their choice. Our experienced catering staff are there to help any child that may not be entirely happy with their meal.

School lunches are now regulated so you can be sure that every choice is a healthy balanced one, for more information visit [www.childrensfoodtrust.org.uk](http://www.childrensfoodtrust.org.uk). We can also cater for most medical diets following consultation with dieticians and parents.
