Group: Reception

Land Art

This week Reception have been creating land art pictures.

Firstly we had a look at some land art pictures created by other people. The children loved the different designs made out of twigs, leaves and stones.

We had a think about the pictures we wanted to create before hunting round the garden for suitable materials.

Once we had found everything we needed we got to work, each child using a paving slab as their frame.

The children created a range of pictures including mums, dads, grandads, houses, rockets, parks, flowers and pets.

As you can see, the pictures are very creative!

Each child was able to tell us what they had created and what they had used for each part of the picture.

We left some of the art in place so that other children could admire their work.

Great work Reception! See you again soon, Catherine
